Invitation to a press conference

**International symposium with the theme
»Creating a mindset for music among teenagers and
young adults«**

Encouraged by the huge success of the symposium two years ago, the Körper Foundation and the Elbphilharmonie have once again invited well-known experts from Europe, the USA and Asia to an international symposium to take place in Hamburg from Wednesday, **24 February to Friday 26 February 2010**. The theme for 2010 is »Creating a mindset for music among young people aged between 15 and 25«.

More than **150 participants from twelve countries** who work in concert halls and their surrounding environment (politics, the media, universities and the cultural scene) will present their work, talk about their experience and exchange ideas in workshops.

Christoph Lieben-Seutter, General Director of Elbphilharmonie and Laeiszhalle, and Dr. Klaus Wehmeier, Deputy Chairman of the Körper Foundation, look forward to presenting the initial results of this symposium to you in the KörperForum at 1 p.m. on 26 February 2010.

Kind regards
